TRAINING BROCHURE
2019
The Logo of NISA and the training sector is the resplendent Sun which is the symbol of enlightenment. National Industrial Security Academy strives to foster National Security by enlightening people with the Knowledge, Skills and Attitudes required for the purpose true to its motto.

‘ज्ञानेनू वद्द्रते सुरक्षा’

**Mission Statement**

**MISSION**
- To develop professionals imbued with the highest standards of physical and mental fitness
- To impart in-depth knowledge and skills pertaining to industrial and critical infrastructure security, aviation security and disaster management
- To inculcate positive attitudes characterized by discipline, integrity, courage and responsiveness

**VISION**
To achieve training excellence in the fields of
- Industrial Security Management
- Aviation Security
- Disaster Management
Central Industrial Security Force is entrusted with providing security to the vital assets of national, economic & commercial importance, such as Airports, Seaports, Space and Atomic Energy Establishments, Steel Plants, Refineries, Mass Rapid Transportations Systems such as DMRC and others. Over a period of time, CISF has been able to provide a robust, foolproof security framework to those national installations, simultaneously evolving into an iconic armed force of the Union with no parallel in the world. Events in the recent past highlight the fact that security threats against key economic installations of our country remain significantly high. Therefore, there is no room for complacency and security of our vital installations should be at the highest possible levels. The CISF personnel need to display the highest level of proficiency and professionalism in discharge of their duties, for which training of highest standards is pre requisite.

The National Industrial Security Academy in Hyderabad is the Premier National Academy of CISF that has been training the officers of CISF to meet the ever-changing responsibilities and challenges entrusted to the Force by the Govt. of India. By Virtue of this evolution of its capabilities, today NISA is not only a Centre of Excellence in Industrial Security Management, but also a pioneer training institute in Disaster Management and a BCAS recognized Aviation Security Training Institute. It has regularly been offering training in its core competencies not only to CISF personnel but to a broad spectrum of outside agencies as well. I am proud to announce that recently the efforts of NISA for continuous improvement have been recognized at the 2nd National Seminar on Excellence in Training when it was awarded the National Award for Excellence in Training in the field of Faculty Development.

This brochure highlights the training capabilities and expertise that NISA possesses. We conduct a vast array of courses on Industrial Security, Aviation Security and related disciplines which would also be suitable for organizations other than CISF. CISF remains committed to professional excellence and our commitment to national security is unwavering. Let us join hands to create a safer and resurgent India on path to economic glory and socio economic progress for its people.

Jai Hind

RAJESH RANJAN
Director General
Contents

1. Courses in Industrial Security
   1.1 Introductory Course on Installation Security, IEDs & DM
   1.2 Senior Level Industrial Security Course
   1.3 Seminar on Vital Facility Security
   1.4 Vertical Interaction on Aviation & Seaport Security

2. Courses in Technology in Security
   2.1 Modern Tech. Gadgets in Industrial Security
   2.2 Modern Security Gadgets in Access Control

3. Courses in Disaster Management
   3.1 Disaster Management Course / CIMC
   3.2 Vertical Interaction Course on CBRN Disasters

4. Specialized Indoor Courses
   4.1 Soft Skills, Stress Management & Counseling Skills Course for GOs & SOs
   4.2 Indoor Instructor Course for GOs & SOs
   4.3 Critical Incident Management Course

5. Significant Events in the Last Few Years
6. Important Visits & Courses
7. Joining Instructions
8. Schedule of Various Training Courses in 2019
The First CISF Training College was established at Partapur, Meerut in 1969 and was shifted to Sivarampally, Hyderabad in September 1971. In July 1987, the Training College was shifted to its present location at Hakimpet, Hyderabad. On 08th December, 1990, the Training College was upgraded into a full-fledged Academy and named as the National Industrial Security Academy by the former Hon’ble Minister of State for Home, Shri Subodh Kant Sahay.

The Academy has completed 25 years of service to the Nation in December 2015. Over the last 25 years, NISA has imparted Basic Training to more than 772 Gazetted Officers and 8582 Sub Officers of CISF who are presently working in different CISF units across the length and breadth of the Country and enhancing the security of the Nation. The Academy is spread over a campus of 237 acres and is equipped with all modern facilities necessary for imparting quality indoor & outdoor training.

Courses Offered

NISA has been training not only the Officers of CISF but also of sister CAPFs, State Police Organizations, Foreign Police Organizations, Civil Servants and Officers of Public Sector undertakings. The Academy offers a wide range of training programmes.
1) Basic / Induction Courses
2) Promotional Courses
3) Specialized Courses
   a) Industrial Security Course
   b) Aviation Security Course
   c) Disaster Management Course
   d) Customized Courses for other organization
4) Sponsored Courses of BPR&D, ATA & other organization
The National Industrial Security Academy (NISA), Hyderabad is the premier training institute of Central Industrial Security Force which was declared as a “Centre of Excellence” in Industrial Security Management by Ministry of Home Affairs (GOI).

The continuing efforts of NISA for self improvement were recognised at the 2nd National Symposium on Excellence in Training 2016, when it was awarded the “National Award for Excellence in Training” in the thematic area of Faculty Development for its START (Specialization, Training, Accountability, Relevance and Technology) programme for its faculty.
Facilities at NISA

- Training Block
- Technical Centre
- Guest House
- Computer Lab
- Outdoor Training Grounds
- Library
- Swimming Pool
- NISA Hospital
Training Methodology

- Lecture & PPT
- Case Study Discussion
- Field Visit
- Hands On Practice

1.1. INTRODUCTORY COURSE ON INSTALLATION SECURITY, IEDs & DM

**Course Objective**
To give the officers and men of State Police, Central Govt. organizations and CPOs an introduction to Installation Security, Explosives Detection and Disaster Management.

**Targeted Competencies**
On completion of the training program the participants will:
- Understand the design of access control and security infrastructure of an installation
- Get an idea about the conduct of contingency and mock drill
- Know about the functioning of various Intrusion Detection Systems (IDS)
- Be able to handle explosives detection systems and apply protective and safety measures to handling of suspicious objects
- Understand the operations of video surveillance systems
- Know the basic principles of Disaster Management in installations

**Course Contents**
- Fundamentals of installation security
- Security audit
- Intrusion detection systems – lecture & demo
- Technology in security
- CCTV – lecture
- Fire fighting – lecture & demo
- Scientific designing of security system
- Scientific planning of material movement
- Disaster management – lecture & demo
- Bomb action plan – lecture & demo
- HHMD, DFMD & X-BIS – lecture & demo
1.2 SENIOR LEVEL
INDUSTRIAL SECURITY COURSE

Course Objective
To train the senior officers of State Police, and CPOs in holistic industrial security management and in the use of technology in providing security.

Targeted Competencies
On completion of the training the participants will know about
- The implementation of various Industrial Security Management techniques
- The effective use of technology in industrial security
- Handling IEDs and fire incidents

Course Contents
- Dynamics of Industrial Security
- Threat perception, vulnerability assessment & risk analysis of an industry
- Physical security & access control system
- Sabotage, espionage and counter measures
- Guarding and escorting of cash / valuables
- Integrated security systems
- Security survey and security audit

- Hands on practice on HHMD, DFMD & X-BIS (OTS) simulator
- Contingency plans
- Modern security gadgets - visit to NISA technical centre
- Intelligence & surveillance
- Introduction to explosives, IEDs and dealing with bomb threats
- Fire protection and fire fighting
- Cyber security
1.3 SEMINAR ON VITAL FACILITY SECURITY

Course Objective
To provide a forum for the senior officers of State Police, and CPOs to discuss about various kinds of security threats to vital facilities and the principles of handling certain contingencies.

Targeted Competencies
On completion of the training the participants will:
- Be able to identify present and emerging threats to various vital facilities
- Know about the methods of guarding against and countering such threats
- Have an idea about the principles of managing fire and CBRN disasters

Course Contents
- Psychology of security
- Criticality, threat perception, and vulnerability assessment of space and nuclear installations
- Security of critical infrastructure
- Information & cyber security
- Aviation security and metro security
- Trends in labour unrest
- White collar crime
- Fire prevention in industries
- CBRN Disaster Management
1.4 VERTICAL INTERACTION COURSE ON AVIATION AND SEAPORT SECURITY

Course Objective
To provide a forum for the officers of State Police and CPOs to discuss and learn about the threats to and the security architecture required for Civil Aviation & Seaports.

Targeted Competencies
On completion of the training program the participants will:
- Understand the various threats to aviation & seaport security
- Know about the various systems to prevent and mitigate threats to these sectors
- Be able to design security infrastructure and use technology in enhancing security
- Be aware about methods of coordination among various stakeholders of these sectors

Training Methodology
- Lecture & discussion
- Demonstration
- Field visits: RGI Airport and GMR Trg. facility, Hyderabad

Course Contents
- An overview of aviation security
- Aviation security vis a vis airport security
- Soft skills/coordination/myths and realities of aviation security
- Profiling & behavior detection
- Threat perception to aviation & seaports
- Framework of aviation & maritime laws for security measures
- Handling of security of private port for example “Krishnapatnam Port”
- Aviation & seaport security – role of armed forces
- An overview of port & coastal security and recommended security measures
- Role of police in coastal security
- Security in handling of bulk cargo
- Container security
- Handling bomb threats to airports and seaports
- Anti hijacking measures - roles of various agencies
2.1 MODERN TECHNICAL GADGETS IN INDUSTRIAL SECURITY

**Course Objective**

To introduce the officers of State Police and CPOs to the functioning and handling of Modern Technical Gadgets that are employed in industrial security.

**Targeted Competencies**

On completion of the training program the participants will be able to:

- Understand importance of technology in security
- Understand and use technical gadgets for access control
- Understand and use various perimeter intrusion detection system
- Understand and use of CCTV monitoring system
- Know how the various technical Systems are integrated

**Course Contents**

- Specification & components of turnstile gates, DFMD, HHMD and visitor management system
- Hands on practice on DFMD, HHMD and visitor management system
- Specification & components of vehicle barriers, UVSS, tyre killers and bollards
- Hands on practice on vehicle barriers UVSS, tyre killers and bollards
- Specification & components of XBIS and explosive detector
- Hands on practice on XBIS and explosive detector
- Specification and components of infrared barrier, microwave barrier, taut wire system and power fence
- Demonstration on infrared barrier, microwave barrier, taut wire system and power fence
- Specification & components of CCTV monitoring system
- Installation and monitoring of CCTV
- Various level of integration of security gadgets

**Training Methodology**

- Lecture and discussion
- Hands on practice
- Demonstration
- Field visit
2.2 MODERN SECURITY GADGETS IN ACCESS CONTROL

**Course Objective**

To train the officers and men of State Police and CPOs in handling modern security gadgets that are employed in implementing access control at sensitive installations.

**Targeted Competencies**

On completion of the training program the participants will be able to:

- Appreciate the techniques used in regulating access control of men and material
- Understand and use technical gadgets for screening of personnel
- Understand and use technical gadgets for screening of baggage

**Course Contents**

- Importance of access control in installation security
- Specification & components of X-BIS
- Hands on practice on X-BIS
- Specifications and use of HHMD and DFMD
- Hands on practice on HHMD and DFMD
- Passenger profiling
- Courtesy and behavior
- Physical inspection of baggage

**Training Methodology**

- Lecture & discussion
- Demonstration
- Hands on practice
- Field visit
3.1 DISASTER MANAGEMENT COURSE / CIMC

Course Objective

To give an overview of the various aspects of Disaster Management to the officers of State Police, Central Govt. organizations and CPOs who would be expected to act as leaders in managing and responding to disaster situations.

Targeted Competencies

On completion of the training program the participants will:

- Know about the different types of disasters - natural and manmade and the typical problems of each kind of disasters
- Get an idea of the proactive measures to be taken to handle disasters
- Learn how disaster management equipment are operated
- Learn about the role of various agencies in disaster rescue, relief and management

Course Contents

- Disaster management: An overview
- Role of police and armed forces in DM
- Collapsed structure search and rescue - salient features including response mechanism
- Incident command system
- Basic life supporting skills - CPR (Cardio Pulmonary Resuscitation)
- Role of NGOs in disaster management and community based disaster risk management
- Nuclear disaster scenario and management
- Role of media in Disaster Management Case Studies for eg: Bhopal gas disaster
- Post Disaster Trauma Management
- Visit to Disaster Management Technical Centre of FSTI/NISA
- Visit to props area & hands on practice of DM equipment
3.2 VERTICAL INTERACTION COURSE ON CBRN DISASTERS

Course Objective
To provide a forum to sensitize the officers of State Police and CPOs about the peculiar challenges posed by CBRN disasters and the special methods and technology used to manage them.

Targeted Competencies
On completion of the training program the participants will be:
- Aware of the types and complexities of CBRN disasters
- Get an idea about the best practices and resources available in India to manage these disasters
- Exposed to the different modern technical gadgets that can be used to manage CBRN disaster situations

Course Contents
- Role of police and other CAPFs in disaster management
- Overview of disaster management in India
- CBRN disaster management - An overview
- Post disaster trauma & related health issues
- Biological warfare & ethics in use of biotechnology
- Case study on Fukushima Daichi Nuclear Plant Incident, Japan
- CBRN threat perception in India
- Hands on practice with CBRN equipment at DM technical centre, NISA and at CBRN lab, ECIL
- Media management during disasters
- Case study on effects of nuclear weapons on Nagasaki and Hiroshima
- CBRN / DM / fire demonstrations
- Critical incident management
- Case study of Bhopal gas tragedy

Training Methodology
- Lecture & discussion
- Demonstration
- Field visits: NFC, Hyderabad
4.1 SOFT SKILLS, STRESS MANAGEMENT & COUNSELING SKILLS COURSE FOR GOs & SOs

Course Objective
To make the participants aware of the importance of soft skills for effectiveness in performance of duties and to introduce them to the techniques of stress management and counseling.

Targeted Competencies
On completion of the training program the participants will be:
- Aware of the meaning and components of soft skills and their importance in their lives.
- Able to understand stress and use appropriate techniques to manage the stress.
- Sensitive to the need of others and be able to counsel those in need.
- Better at inter-personal communication.

Course Contents
- Introduction to soft skills
- Importance of communication and barriers of communication
- Self awareness and self enhancement
- Public speaking
- Motivation
- Stress management : Causes and effects of stress
- Job stress management
- Managing stress through health management
- Stress management in paramilitary forces
- Managing stress through time management
- Introduction of counseling
- Counseling techniques
- Trust building

Training Methodology
- Lecture & discussion
- Demonstration
- Exercise and role plays
- Experience sharing
4.2 INDOOR INSTRUCTOR COURSE FOR G0s & S0s

Course Objective
To familiarize the participants with various techniques of indoor training enabling them to acquire adequate instructional abilities.

Targeted Competencies
On completion of the training program, the participants will be able:
- To understand how adult learning takes place and is to be facilitated
- To use various indoor training methods and training aids to make learning in the classroom more effective
- To evaluate the effectiveness of training and monitor its progress properly

Course Contents
- Trg. alignment for organizational requirement
- Qualities of a good instructor
- Systematic approach to training
- Managing a class
- Kolb's learning style inventory
- Communication skills
- Preparation of lesson plan
- Preparation of Power Point Presentation
- How to motivate a trainee
- Use of audio visual aids in teaching
- Use of black board & preparation of transparencies
- Preparation of time & work chart, syllabus & check sheet
- Pygmalion effect
- How to use LMS
- Preparation of check list and training programme
- Methods of teaching: Role play, demonstration, lecture and discussion
- Active learning 3iE
- Instructional system design model
- Brain storming
- Evaluation of training
- Training need analysis
- Lecture by trainee
- Outdoor inputs
- Yoga / Mediation / PT - 10 periods
- Weapon Training - 10 periods
- Games - 14 periods

Training Methodology
- Lectures/Demo/Case Study
- Syndicate Work - Practical

Evaluation
- Written test : 50 marks
- Practical : 50 marks
- Lecture by trainee : 70 marks
- ate presentation : 30 marks
4.3 CRITICAL INCIDENT MANAGEMENT COURSE

Course Objective

- To introduce the participants with different types of disasters - Natural and manmade with the typical problem of each
- To sensitize the participants towards the perspective and the efforts of the government as well as the Non-Govt. Sector in the area of Disaster Management.
- To familiarize participants with correct approach to critical incidents
- Ways & means of handling different kinds of contingencies faced by uniformed personnel.

Inputs

- Disaster management : An overview
- Role of Police and Armed Forces in DM
- Collapsed Structure Search and Rescue - Salient features Including Response Mechanism
- Basic Life supporting skills- CPR (Cardio Pulmonary Resuscitation)
- Nuclear disaster Trauma Management
- Post Disaster Trauma Management
- Props area & Hands on practice of DM equipment
- International Security scenario and counter terrorism
- Threat perception & vulnerability assessment
- Handling bomb calls and management of suspicious objects
- Cyber -attack : prevention & response
- Fire protection and Firefighting

Training Methodology

- Lecture & discussion
- Demonstration
- Case Studies

Field Visits

- Visit to Tsunami Early Warning Centre- INCOIS (Indian National Centre for Ocean and Information Services), Hyderabad
- DM Technical Centre & Props area, FSTI- B A Gallyary,
- NISA Technical Centre, NISA AVSEC School
CISF Golden Jubilee Year Celebration 2018-2019

**Shri Rajesh Ranjan, IPS, DG, CISF**
Inaugurated the “Golf Green” at NISA on 07.06.2018

**4th Yoga Day** celebrated at Gachibowli Stadium, Hyderabad, under the leadership of
**Smt. Anjana Sinha** IPS, Director/NISA.

**Dr. Smt. Swaranjali** Director of Jeavandan NMIMS Hyd, interacted with the staff and trainees of NISA during Organ donation awareness programme conducted by the NISA Hospital on 25.07.2018

**Smt. Anjana Sinha** IPS, Director & IG/NISA
Inauguration Golden Jubilee Garden on 07.07.2018

**Shri TVikram** IPS DIG/NISA interacting with Sched Students on 25.09.2018 as part of Open House

**Smt. Anjana Sinha**, IPS Director/NISA & Smt. D.B Rajanala, CMO received a award from Red CROSS SOCIETY for blood Donation drive conducted by NISA.

**The Memorandum of Understanding (MoU)** signing ceremony between NALSAR University of Law, Hyderabad & NISA on 06.12.17

**Launching of “Shikshak Mobile App” (Mobile - Learning Courses) by DG CISF**
on 04.09.2017

**Inauguration of “Special Tactics Training Wing” by DG CISF on 29.04.2017**
Significant Events in the last Few Years

CISF Golden Jubilee Year Celebration 2018-2019

- Curtain Raiser by Tennis Star Sania Mirza
- Blood Donation Camp
- Silver Jubilee Suraksha Marathon

Telangana OORJA-CAPFs U-19 Foot Ball Talent Hunt 2017 1st to 7th May 2017

- Shri Mohammad Mahmood Ali Dy. Chief Minister, Telangana State
- Shri Padma Rao Goud Minister Sports, Telangana State
- Winners Trophy to TFA Senior Girls

65th AIPAC Hosted by CISF, 3rd to 7th Sept 2016 at Gachibowli Stadium, Hyderabad

- Hon’ble Governor of Telangana and AP as the Chief Guest of Opening Ceremony
- Women 400 Meter Final
- Hon’ble Chief Minister of Telangana as Chief Guest of Closing Ceremony
Important Visits & Courses

CISF NISA welcomes Delegates from United States and Ministry of Defence, India on 1st August 2018

1st Industrial Security Course for Officers of Sri Lanka Police from 24.09.2018 to 28.09.2018

J&K Police participants during CRT Course

UP Police participants during CRT Course
Introduction

National Industrial Security Academy is the premier training institution of Central Industrial Security Force. The Academy was established primarily to conduct the basic induction training of directly-recruited Assistant Commandant and Sub-Inspector and to function as institution to cultivate professionalism & expertise in Industrial Security Management among CISF Personnel, it has been imparting specialized training to officers & personnel of CISF, IAF, PSUs, other Police organization and foreign police personnel.

Location

The Academy is spread over 237 acres of land and is located opposite to the Air Force Station at Hakimpet on the Rajiv Gandhi State Highway in Secunderabad city. The distance from the Academy to the Rajiv gandhi International Airport (Shamshabad) is approximately 53 kms. and to Secunderabad Railway Station is approximately 17 kms.

Climate

The location has a pleasant weather with mild winters (10⁰C - 30⁰C), moderate summers (28⁰C - 45⁰C) and monsoon rains (June-September).

Telephone No./Fax No. e-mail

Telephone Nos.: 040 - 2786 2690, 2786 2691 ,  
Fax No.: 040 - 2786 3997  
e-mail: nisa-hyderabad@cisf.gov.in

Address for correspondence

Director,  
National Industrial Security Academy,  
Post: Hakimpet Hyderabad, Telangana, Pin: 500 078

Reporting

The participants nominated for the course should report to the Academy one day before commencement of the course. If coming by train, please alight at Secunderabad Railway Station, and do not go to Hyderabad Railway Station, if coming by air, please alocht at RGI Airport, Shamshabad.

Return reservations

Officers are advised to make advance return reservation. That would obviate the difficulty in getting reservation from Hyderabad / Secundrabad.

Travel plan

Officers are requested to intimate their travel plan along with their mobile number and address well in advance for making administrative arrangement. Transport on individual base will be provided only to the officer of the rank of DIG and above from the Railway Station/Airport/Bus Station to the Academy.
Introduction
Officer will be accommodated in residential hostels as per their rank on shared basis. Trainees are not permitted to bring their families during the course.

Timings of Mess & Mess discipline: Mess timings are as follows
- Breakfast: 0830 hrs to 0900 hrs
- Lunch: 1300 hrs to 1400 hrs
- Dinner: 2000 hrs to 2100 hrs

Officer are expected to observe mess discipline and service etiquette. They are expected to come in the mess and recreation room in proper attire. The dress code during the course for dining will be civvies with full sleeve shirt tucked in with tie & leather shoes (black/brown).

US Department of Defense
Thank you for the excellent visit. The briefing we received were
outstanding. You have a lot to be proud of at this Training Centre.
The magnitude of the training is awe inspiring. Our visit was very
enlightening and the hospitality was more than any one would
expect. Again thank you and all the best to the
Director and Staff at the Training Centre

18-03-2013
Raghvendra Auradkar
Prin. Sec. (PCAS), Home Department
Govt. of Karnataka,
Bangalore
Attended the Inaugural function of KSIF PSis
training by the NISA is definitely premier Institution
and it was my privilege to be here. The Director and
Faculty members of the NISA gave a bright eye view
and very warm welcome. My gratitude for them

29-11-2017
Jhugroo Premhans
Senior Chief Executive
Ministry of Defence and Rodrigues, Mauritius
It has been a very rich experience visiting
NISA. We have been impressed by the
training facilities available and the techniques
being imparted to officers. We thank heartly
the whole NISA team for organizing the visit.
We wish you a lot of success to NISA.

03-08-14
Kiren Rijiju
Union Minister of State for Home Affairs
Attending the passing parade of officer of
CISF – NISA was an event full of confidence
generating for me. The integrated approval
of CISF with impeccable discipline and
precision make it one of the foremost
security forces of India. I wish to entire
CISF cadre a warm greeting

12-07-97
K. Padmanabhaiah
Union Home Secretary
I should have visited the Academy long time ago.
However I am very happy that though let, I could
make it today. The Academy has got an excellent
campus away from the city and the principal and
staff are dedicated. I saw all the trainees in action,
and I find that they take their training seriously.
I wish to congratulate the CISF management
in running the institution in a
dedicated manner
